SUBSESSIONStage 3

Docking station with 2.1 speaker system

Speaker

- Docking Station with 2.1 speaker system
- USB bus powered (no power supply needed)
- USB 2.0 Full-Speed compatible
- Class D Amplifier
- Line input for external audio sources
- Low noise cooling fan
- Blue LED backlight
- 3-stage power switch (Off/On/Fan)
- Plug ‘n Play (no driver necessary)

The SubSession Stage 3 docking station is a 2.1 speaker system and laptop cooler in one. The attractively shaped housing contains not only a fan that is high-performance despite being quiet as a whisper (< 20 dB), but also two speakers, one subwoofer and one high-quality class D amplifier for powerful and transparent sound.

It is very easy to connect; there is no complex driver installation. Simply place your laptop on the non-slip surface, connect it to the SubSession Stage 3 via the fast USB port and you're done. It conveniently draws its power from the USB port. If you want, however, you can also relieve your laptop of this duty. A mains power adapter is naturally included.

If you prefer listening to music from your MP3 player, you don't have to forego the good sound of the SubSession Stage 3. External audio devices can easily be connected to the line input. We also provide the necessary cable for this. Sophisticated technology, stylish design, first-class sound—this will be a treat for your laptop and your ears.
